PRIMARY EXAMINER

Art Unit: 2881

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

On May 30, 2006, the examiner called attorney Eric Hyman to propose the attached Examiner's Amendment. Mr. Hyman said he needed authorization from his client to authorize the amendment and would contact the examiner once he received such authorization. As of June 12, he still had not received such authorization, so the examiner was forced by time constraints to send out the Office action dated June 14, 2006, rejecting claims 11 and 12. On June 16, Mr. Hyman called the examiner (who was not in the office because it was his day off) and left a message saying that he had received authorization from his client, and that he was therefore authorizing the proposed amendment.

The application has been amended as follows:

IN THE CLAIMS:

11. (Currently Amended) An apparatus for generating a plurality of charged particle beamlets, comprising:

- a charged particle source for generating a diverging charged particle beam;
- a converging means for refracting said diverging charged particle beam;
- a lens array comprising a plurality of lenses, located between said charged particle source and said converging means, wherein said lens array is concave with respect to said

source; and splitting means for splitting said charged particle beam in a plurality of charged particle beamlets.

The following is an examiner's statement of reasons for allowance: As the examiner stated in the Office action of December 13, 2005 and repeated in the Office action mailed on June 14, 2006, nothing in the prior art suggests using Le Poole's aperture array (gauze 18) in addition to the lens array (beam splitting gauze) used by Roelofs et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jack I. Berman whose telephone number is (571) 272-2468. The examiner can normally be reached on Monday-Thursday (8:30-7:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John R. Lee can be reached on (571) 272-2477. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
